Become a Part of History – Help Build the Largest Monument in Central Texas

Introduction: Return to the Stars

We are excited to announce the construction of the “**Return to the Stars**” Monument, an 80-foot-tall Saturn V rocket sculpture, set to become the largest monument in Central Texas. Located near Lockhart, Texas, this monumental structure will honor one of the greatest moments in American history – when mankind first set foot on the Moon.

The Saturn V Monument will serve as a symbol of America’s pioneering spirit and its continued leadership in space exploration. **With your help, we can bring this historic vision to life.**

Our Goal

We’re raising **\$80,000** (**\$40k** will go towards completing the monument, **\$12k** will go towards 6 months of operational costs, **\$3k** will go towards stipends for volunteers, and the remaining **\$25k** will be used as seed funding for our next monument).

We’ve already secured **\$5,000** and are actively raising the remaining **\$35,000** to complete monument construction. Additional funding will fuel our operations, reward our volunteers, and launch our next project without delay.

Key Milestones Include:

- **Concrete Foundation:** Establishing a 12’x12’x12” concrete foundation with a 8”-12” concrete perimeter beam to support the internal structure.
- **Tower Framework:** Erecting 5 towers to create the booster forms, around which rolled mild steel will be welded.
- **Mild Steel Exterior:** Rolling and embossing mild steel with Saturn V lettering and designs.
- **Site Preparation and Labor:** Completing the build with professional installation, necessary equipment, and finishing touches.

Funding Milestones Include:

- At the \$10,000 mark we will purchase 5 interior towers, clear the site, and break ground immediately
- At the \$25,000 mark we will emboss and roll the mild steel for the rocket exterior

- At the \$35,000 mark we will assemble the rocket with a 120-ft lift on-site
- At the \$40,000 mark we will add finishing touches (lighting, visitor walkways, plaques, etc.)

With your generous contribution, we aim to complete the monument by **May 2025**.
